Network Access Guideline Agreement

The district dedicates the property comprising the Tillamook School District Electronic Information Network System (TSD Network) and grants access to it by users only for the educational activities authorized under this agreement and guideline and the specific limitations contained therein. The TSD Network encompasses all electronic information access mediums.

Students are responsible for good behavior when using electronic resources and networks just as they are in a classroom or school hallway. Communications on networks are often public in nature. School rules for behavior and communications also apply to these networks to conduct research and communicate with others. Access to TSD Network services will be provided to students and staff who agree to act in an appropriate and responsible manner.

Independent student use of the TSD Network will be permitted upon submission of permission and agreement forms submitted by students, with parental consent forms. Tillamook School District supports and respects each family's right to decide whether or not to apply for student access.

In addition, use of the TSD Network by students and staff is subject to the Tillamook School District Internet Acceptable Use Procedures as outlined below.
